

MANISH CHEMICALS

Lamafix - Reactive Dyes

Quality is our Qualification

Establishment

Mr. Ramesh Patel, the pioneer of Manish Chemicals, a Government recognized Export House, is a post graduate in Chemistry with more than 30 years of experience in the Dyestuff Industry. Incepted in 1979, the company had humble beginnings with basic machinery but with great determination, technical expertise and teamwork, Manish Chemicals became a 100% export-oriented unit in 1992 housing the latest spray driers and first-of-its-kind RO (Reverse Osmosis) technology, now the company stands as one of the leading Dyestuff Manufacturers in the country.

Quality Management

Quality is crux of our business and is the crucial aspect that sets us apart. Nowadays, the word "Quality" is thrown around by a lot of people without giving a second thought to its underlying importance in today's extremely competitive environment. From procurement to delivering final product, we along with our 160 employees, make sure that every product goes through rigorous quality checks to ensure the highest standards in the Dyestuff Industry. Quality starts with getting the right raw materials, since inception we have always procured materials which are of the highest quality standards, that combined with our latest technology and technical expertise has resulted in impeccable products for our customers.

Research & Development

Manish Chemical's foundation lies upon technical expertise. In our 30 years of proven track record, we have established our commitment to innovation which cannot be described in simple words. Manish Chemicals was the first company in the region to introduce "SALT FREE" Dyes. We have developed "High-Concentrate Salt Free Dyes" which were previously only dreamed of. Development to us is not an activity but a Philosophy which is reflected in every step we take to satisfy our customer needs and demands.

Global Marketing & Distribution

As a result of our impeccable products, we have developed our distribution network of "LAMAFIX" brand in key markets ranging from USA, Brazil, Argentina, Mexico, Honduras, Switzerland, Netherlands, Germany, Spain, Portugal, Italy, Greece, Turkey, Taiwan, Indonesia, Hong Kong, South Korea, Australia, New Zealand etc. We enjoy long term relationships with leading Multi-National Companies and our repeat sales from these customers, who have supported us since 30 years, is our Qualification.

MANISH CHEMICALS

Product Range - Reactive Dyes

Vinyl Sulfone Based • ME (Bifunctional) type • Trifunctional • Cyanuric Chloride Based
HE (High Exhaust) type • Hot Brand • Cold Brand • HEXL • RGB

Production & Plant

We have established our production capacity of 3000 Metric Tons per year of Reactive Dyes with the help of 3 Spray Driers & 3 RO plants. We have a growing list of more than 50 products, all of them available in our "High Concentrate" form. Our "Quick Shipment" policy transpires to a buffer stock of 400 Metric Tons at any given time.

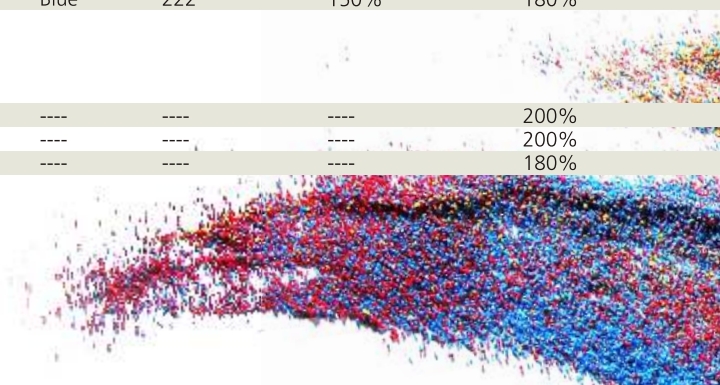

Environment Friendly

We have an abiding concern for the environment. Due care is taken for keeping environment and nature free from hazards. We shoulder this social and moral responsibility of cleanliness and respecting nature without contaminating air, water and earth. Our Effluent system treats waste water consisting of harmful chemicals and brings it down to clean water approved norms.
